## PRODUCT TERMINATION NOTIFICATION

---

### STM32F050x, STM32F313x and STM32F383x Commercial Product name change

---

MMS - Microcontrollers Division (MCD)

Dear Customer,

In order to ease the presentation of our STM32F portfolio product, the product line concept is reinforced, inducing commercial product name change.

The purpose of this change is to improve the identification of the targeted devices, clarifying the link with the documentation and the development tools. The root part number is replacing denominations like “High-density, medium-density” in the reference manuals. Besides, it eliminates any doubts related to the content of integrated features.

Customers, ordering STM32F050x, STM32F313x and STM32F383x products can migrate respectively to the STM32F031x, STM32F35x and STM32F37x products.

Consequently, you will find here enclosed a list of devices that ST proposes for termination with their direct replacement.

Should you have any question relative to product termination, please refer to our ST sales representatives.

With our sincere regards.

Michel Buffa

Microcontroller Division General Manager
